

Complaint on the calamitous situation of NH 66

To Honorable Assistant Commissioner,

Shrimati Kalyani Kamble

The National Highway (NH) 66, linking Kochi with Panvel, Mumbai, passes over Karnataka parallel to its coast, with some stretches almost on the shore, or touching the mangroves. NH 66 is the prime coastal road connectivity but, despite the importance of this highway for faster connectivity within and outside the state, the Government stakeholder departments are not taking steps for its maintenance along the state.

Thus, we bring to you a local complaint on this vast public nuisance, along with the request for urgent stern action to reverse, consistently, the calamitous situation of the Highway stretch under your jurisdiction that became a permanent colossal dumping place.

If you consider pertinent we are ready to send you an action plan for the undertaking.

With our best greetings,

16 December 2024

The President

Ana S.
