To the kind attention of the Regional Officer of KSPCB, Karwar,

Shri Santosh,

Considering the current environmental debacle consistently witnessed at Gokarna in many fronts,

Khushi Parisara requests

1. a comprehensive inspection of the lasting use of the F Sy. No. 1492A/1A at Gokarna Forest land by Gram Panchayat to dump and burn all sorts of mixed waste, specifically requesting information on the current sets of the place and the bio-remediation or capping of the dump site as per norms to avoid environmental damage.
2. a detailed probe on the current disposal of the stated 6 tonnes of waste daily collected by Gram Panchayat, comprehensive of its full processing (inclusive of segregation and dumping of all dry and wet waste)
3. an all-encompassing scrutiny of the constant operations of JCBs on the seashore between the New Fish Market and Hanehalli.

Thanking you in advance for your attention and looking forward your return
Kindly accept our best greetings,

Ana S.
